

建機と合体したAEMの磁選設備

設備例: 残土ガラからの鉄片の磁力選別

納入先: 残土処理業者様

<設備仕様>

磁選機: APS-1000(ベルト巾1000 駆動2.2kw 質量1300kg)

磁選専用コンベア: AC1000-6M(ベルト巾1000 機長6200 駆動0.75KW 質量2000kg)

永磁ブリー: APR-35110(350φ × 1100L 質量270kg)

総合重量: 4.4t 処理量: 約15t/h

The facility example: The magnetic force sorting-out from the earth and the stone which was disposed of.

磁選専用ベルトコンベア

残土トロンメル

大型永磁ブリー

廃棄された残土には色々な物が混ざっています。土・砂・石・コンクリート・鉄筋・空き缶・木片・樹脂関係・油類・掲げれば切りが有りません。この設備は土に混じって危険とされる主に鉄類を選別する設備です。簡単構造で故障が少なく扱い易く設計されています。ベルト巾が広く設計されていますので選別効率も良く処理量にも余裕が有ります。土自体は地球の持ち物で我々は地球から借りて生活しています。私たち人間も地球から生まれ最後は地球に帰る運命です。そんな地球を汚してはいけません。動物も植物も良い土の上でないと息が充分にできません。農業も工業もまずは土作りではないでしょうか？

The various ones mix with the left earth which was disposed of. There are not earth, sand, stone, concrete, a reinforcing rod, a room can, a jackstraw, resin relation, an oil kind and bounds if declaring These facilities are the facilities which sort out an iron kind in the master which is made dangerous, mixing with earth.

Trouble is easy to handle rarely by the simple structure and is designed. There is leeway in the processing quantity, too, well about the sorting-out efficiency, too, because belt width is widely designed. Earth itself is the things in the earth and we are living in the debt from the earth. The we human being, too, is fate which returns to the earth in the born last from the earth. Don't make such earth dirty. It isn't possible to do inhabiting sufficiently in case of not being on the earth where the animal and the plant are good. Will the agriculture and the industry are not earth construction first?

トロンメルとの合体例

磁選機
APS-1200

大型磁選設備の概要:

建機と合体した磁選設備の設置例です。移動式のトロンメルと併用すれば、設置・移動が簡単です

大きな設備は必要有りません。コンベアと磁選機があればとりあえず鉄系の異物は選別できます

選別処理の期間の短い現場等に最適です。The overview of the large-sized magnetic force sorting-out facilities:

It is the establishment example of the magnetic force sorting-out facilities which were combined with the construction machine.

If using with TROMMEL of the movement formula, by the borrowing facilities, it doesn't have simple structure and the movement, being necessary.

It isn't possible to scramble if there are a conveyor and a sorting-out machine and the alien substance of the iron system is the optimal for the short scene in the period of the sorting-out processing which can be sorted out and so on.
